for any job**

Rugged

Productive

User friendly

Quiet

Easy to service

You're a professional user - contractor, office manager, store owner - and you want a suction cleaner that does the job faster and better. A machine that is easy to use and cleans effectively. Nilfisk GM 80P is a lightweight in the heavyweight professional arena. Reliable and designed

for durability and capacity. The sturdy aluminium container means that the vacuum cleaner is almost indestructable and therefore especially suitable for rough and heavy duty cleaning. Check the specs. Try out this professional. Lightweight, but built for years of heavy duty.

Special Exhaust Filter

For special applications, you may choose between two types of special exhaust filters: Nilfisk HEPA (High Efficiency Particulate Air) filter retaining 99.95% of the ultrafine particles (0.1µm) or the even better ULPA (Ultra Low Penetration Air) filter retaining as much as 99.9995% of the ultrafine particles (0.1 µm). The optional filter also protects against allergies.

The main filter in the Nilfisk GM 80P measures an impressive 2100 cm².
